LONG LIST OF REPUBLICAN MEETINGS.

WELL-KNOWN SPEAKERS WILL BE HEARD ALL

OVER THE STATE THIS WEEK. Last week was a particularly bright and active one for the Republicans, not only in the city and neigh-borhood, but throughout the state. Many things occurred to encourage those upon whom rests the burden of the Republican canvass, and many things happened which have discouraged their Democratic ersaries. The appearance upon the siump of James G. Blaine and his spoken appeal to his countrymen to stand by the Administration which has done so much for the prosperity of the country have alrefrom every part of the land, which could be evoked by no other living man. The great meetings which have been held in this city and elsewhere are in themselves a sufficient answer to the boast of the Democratic managers that Republican apathy

will afford them an easy victory.

The present week promises to be one of continued and increased activity on the part of the Republicans from the Niagara River to Montauk Point. A vast amount of serious and earnest work is in prospect. Not less than 1,500 Republican meetings will be held in the State at large. This is an average of 250 a night. several Republican meetings will be held outside of the cities of New-York and Brooklyn. Orators of No tional reputation will address these assemblages this The list includes the well-known names of ex-Senator Warner Miller, Senator Hiscock, Stewart L. Woodford, Congressman Seth L. Milliken, of Maine; ex-Senator J. Sloat Fassett, ex-Congressman John S. Wise, formerly of Virginia, now a citizen of New-York; ex-Congressman Roswell G. Horr, Congressman Saleno E. Payne, Thomas W. McDovgall, General Cyrus Bussey, ex-Senator John Laughlin, Colonel Archibald E. Baxter, ex Congressman John Raines, E. L. Lampson, Jacob Kemple and W. W. Hicks.

Not less than thirty-six large meetings will be held above the Harlem Elver to-night. For to-morrow night thirty-four big meetings are announced. These will be held in all parts of the State. On Wednesday night the number of these great gatherings will be increased to forty-three, and on Thursday evening forty-four mammoth assemblages will gather and shout for Harrison and Reid. On Friday night the friends of Protection and a honest currency will hold thirty-three large meetings. On Saturday night twenty-three great audiences will listen to Republican eloquence and cheer for the Republican ticket. This exhibit does not look much as if apathy were in command among the Republicans of the interior. On the contrary it looks as if the Republicans above the Harlem wide-awake, full of enthusiasm and forcing the fichting.

But besides these mammoth gatherings. number of meetings will be held in the smaller towns and school districts. Speakers of ability in sufficient numbers have been assigned by Secretary Kenyon the Republican State Committee to the chairmen of the county committees. In addition a great number of local gatherings will be addressed by speakers of high reputation in their various counties and neighborhoods. In all there will not be far from 400 Republican meetings held in the interior during the week beginning with to-day. The Republicans of New-York City have not been

by any means idle. Five district meetings will be eld every night of the week in each and every one of the thirty Assembly districts as they stand under the gerrymander. This aggregates not less than 150 meetings every night in this city-a grand total of 900 Republican meetings to be held in New-York in the week ending on Saturday night. These under the supervision of William Leary, acting for both State and County campaign committees,

In the entire State, therefore, before midnight next Saturday more than 1,300 Republican meetings will he held.

Brooklyn and Kings County are not included in the foregoing list, but the campaign is being pushed just as vigorously there, and the Republicans across the river are as earnestly and enthusiastically at work as are their brethren here and elsewhere. The meetings to be held there, added to those already spoken of, will put the grand footing up to at least 1,500 Republican Many of those in this city and neighborhood are noticed as follows:

GENERAL SICKLES TO HAVE HIS REWARD. General Daniel E. Sickles has been slated for Concress by the Tammany managers. According to information emitted from the Wigwam yesterday the omination in the district now represented by John De Witt Warner, is to be offered to the General. It was formerly the XIth, but now mainly included in the Xth District. Mr. Warner, it is said, will be acommodated with another district, and may be allowed to represent Joseph J. Little's, the XIIth, under the

ew apportionment. The choice of General Sickles upsets the chances of General M. T. McMahon, who has een anxious to go to Washington, and also possibly those of Colonel W. L. Brown, who is credited with a similar ambition. It does not took as if General slickles's attitude toward Mr. Cleveland, and his warm expressions of regard for President Harrison have seriously injured his prospects inside of Tammany Itall. seriously injured

A SUCCESSFUL EAST SIDE ORGANIZATION. The rooms of the East Side Young Men's Republican Club, at No. 27 Eldridge-st., were crowded to the doors last evening, fully 150 members of this ntertaining and successful organization being present. PROGRESS OF THE CAMPAIGN IN NEW-

JERSEY. REPUBLICANS HARD AT WORK IN THE STATE

-" BOB" DAVIS AND THE FEDERAL GRAND JURY - DISCOVERY DAY NOTES-

Trenton, N. J., Oct. 16 (Special).-The campaign has continued actively during the last week, and es pecially in the northern part of the State there have en many meetings and much work of organization among the Republicans. The nominee for Governor was in Sussex County yesterday, and the reports from the strong Democratic district of which Sussex is a have been particularly encouraging to Repub-ns. It is believed that the district will send a Republican to Congress, although there are 3,000 more Democrats than Republicans there ordinary issues. The Democratic bolt against Ross Pid cock is a revolutionary one. Pidcock put up his tool, Cornish, for Congress against the protest of every decent Democrat in the district, and the feeling that it is imperative that the ring which Pidcock represent should be broken up is felt by Democrats throughout the State. The Republican nominee, ex-Congressing Benjamin F. Howey, has carried Warren County be fore, and expects to do so again. If he comes anywhere near doing so his ele tion is practically assured. The two other Democratic counties in the district, Hunterdo and Sussex, will give reduced majorities in any case and Morris and the townships of Essex will easily overcome their vote, with some to spare for Warren Cornish's characteristics and his relations with the Pid cock gang are well understood, and the district is thoroughly aroused at the presumption of the

Another Democratic nomination that is n trouble for the party is that of ex-speaker John T. Dunn for Congress in the district comprising part of Hudson, Union County, the Oranges of Essex County, etc. Dunn was named by a mob in a convention of wild disorder, and he is not at all the man to appeal to intelligent voters of such a district. There been a revolt, and the Republican nominee, W. S. Chamberiain, is likely to get the benefit.

Judge Green promised to bring the matter to the attention of the next Grand Jury, and las Tuesday he did so in his charge, though not quite as energetically as was hoped. The jury will get the testi mony next Wednesday, it is expected, and if the case is as clear in the jury-room as in the public mind, an indictment will follow. The trial of the case would be of wast interest, and to secure the conviction of the Hudson boss who has so long defled morals and debauched government would be a great triumph.

there are complaining voices heard among the faithful as a consequence. There is not the most complete confidence in the State Committee, and Senator Pherson's Ulness has worried many Democrats, who think he is necessary to their political salvation. No action has been taken in regard to the coal combine law-uits of late, excepting to collect testimony to sustain the application for further interference by the courts. The belief that the Court of Chancery will not be content with the partial compliance of the New-Jersey Central Company is general, and an appli cation for the appointment of a receiver to manage the read in accordance with the directions of the court is one of the possible incidents of the next month. Mean and includes the combine increases as the polles are purchased, and in some parts is increased by the number of men work through the combination. observance are on a very considerable scale in several of the cities. The burden of celebrations is upon the Cathelies and the Italians, and paralles of the perochial schools will be a notable feature. In Newark the Italians have prepared an artistic medallion, which is to decorate the Caty Hall. New Jersey shared in the New York pageant to its mingled delight and misery. The crush on the railroads and ferries was something awful and showed that all the companies have much to learn in bandling great crowds, more especially on the ferries. The National Guard did not win the usual amount of praise, and the unfortunate meddling with the regiments of late is the probable cause. The National Guard has not been well managed for a couple of years and the effect upon discipline is beginning to show itself. A Legislative inquiry next winter and some changes would be advisable. observance are on a very considerable scale in several

REAPPORTIONMENT IN MONROE.

Rochester, Oct. 16 (Special).-The Board of Superrisors yesterian afternoon filed the boundries of the Assembly districts of Monroe County according to the new apportionment. Under the old plan the towns had two members and the city, with nearly three times the aggregate population of the towns, one. The city members, under the twenty ward law, had a majority in the board, and it was expected that the new alloiment would give the city two Assembly-men. Two of the city members, however, voted with the town men, and the latter carried through their plan.

DR. HUNTINGTON'S AMENDMENT.

THE EPISCOPAL GENERAL CONVENTION'S PRE-DICAMENT-PLACE FOR THE NEXT

MEETING. Baltimore, Oct. 16 (Special).-The people of Baltimore are good churchgoers, and the Episcopalians of the city came out in great numbers to-dap to hear the twenty-odd bishops and almost as many clerical deputies to the Episcopal General Convention, who oc-

cupied various pulpits.

The deputies are still talking about the strange predicament in which the house finds itself relative to Dr. Huntington's proposed amendments to the consti-tution. These amendments provided that the Lambeth declaration of Anglican bishops should be made the first article of the constitution. The declaration makes a bellef in the Scriptures, the two creeds, the two sacra ments and the historic Episcopate the doctrinal stand-ards of the church. Dr. Huntington's suggestion to make this declaration the first article of the constitution was received with general favor, and even those who were not ready to vote for it were all anxious to have it discussed by the house; but Mr. Burgwin, of Pittsburg, who is not averse to measuring swords with Dr. Huntington as a parliamentarian, effectually prevented this by an universal resolution offered by him and adopted by the house, that all amendments to the constitution be referred to a special joint committee to report on the same three years hence; and so, to its mazement, the house found itself in fetters so far as amendments to the constitution are concerned.

At first, no one thought of anything but the untimely fate of Dr. Huntington's amendments. sympathy is felt for the brilliant and chivalrous New-York deputy, who was so overcome with emotion on saturday, when his resolution was lost with Mr. Nash's amendment, that he could not address the house. This matter has been dear to his heart for many years, and to have it postponed for three years because of a resolution passed through inadvertence and by a perfunctory vote, is a bitter disappointment to him. But much more is involved than Dr. Huntington's

mendments. As matters stand now, if the very existence of the Church depended on the immediate the case of "Bob" Davis, the Hudson County boss, this week, and it looks as if the man who has so far escaped the law, and whose only taste of prison consideration of an amendment to the constitution, would be scooped in by Mr. Burgwin's drag-net resolution. That a great deliberative assembly should thus

URGED FROM THE PULPIT TO VOTE. THE REV. DR. R. S. MACARTHUR'S STIRRING

WORDS TO ALLECITIZENS. The Rev. Dr. R. S. MacArthur preached last evening

upon "Indifferentism and Politics," making a strong plea to all citizens to register and vote. He said in part as follows: "If we neglect our political duty a ediction will assuredly come upon us, in the cirment of bad laws, in injury to the health of the city and in other forms of violated natural law. Many in our day, whose patriotism is of a poor type, neglect of registering, and many who register not take the trouble to vote. The percentage of those who have a vote, but who fall to case it, is astonishingly large. Of those living in one of our avenues in New-York, during a State election, few voted. These were men high up in social life; they were were men representing men of large wealth; they great business interests. They must have known that their neries, of duty was imperilling good government in that Assembly district, and, in some degree, in The men who so neglect the entire city. their duty are unworthy the honors of American citizenship.

We can have just as good a government as desire, but if leading citizens will not do their duty, good government is an impossibility. worst citizens will be sure to vote early and they would vote often if they dared. These so-called best citizens dislike the companionship into which politics brings them. It is said that we must keep politics out of our religion; but it is certain that we ought to put more religion into our politics. The man who is on plous to be patriotic has a doubtful kind of plety. "Men who do not perform their whole duty in striving to secure good government do not deserve good government. The time has come when the pulpit must speak; the time has come when true patriotism must be trumpet-tongued. Is tids Republic worth preserving? Shall government by the people and for the people perish from the earth? Have you registried? Do you intend to vote?

What is the remely for this acknowledged evil! patriotic spirit. Native-born Americans do not appreciate the privilege and honor of citizenship; they do not fully understand the greatness and grandeur of this Republic; they forget that it is the flower and fruitage of the noblest political thought and off et of the ages; that here fiberty is making her sublimest achievements and fulfilling her divinest

The crush on the railronds and ferries was something awful and showed that all the companies have much to learn in handling great crowds, more especially on the ferries. The National Guard did not win the usual amount of praise and the information nedding with the regiments of late is the probable cause. The National Guard has not been well managed for a couple of verix and the effect upon discipline is beginning to show itself. A Legislative impairy next white and some changes would be advisable.

TRIBUNE LOCAL OBSERVATIONS.

In this diagram a continuous white line shows the changes in pressure, as indicated by The Tribune's self-recording barometer. The bosen line represents the temperature as observed at Perry's Pharmacy. Tribune Office, Oct. 17, 1 a. m -A light shower fell

early yesterday morning, after which the skies were clear,

that, if it fails to benefit or cure, in any case, you have your money back.

It's a medicine that cures, in all discusse caused by a torpid liver or impure blood. It's not like the sarsaparilias, which claim to do good in March, April, and May, All the year round, with equal benefit, it cleanses invigorates, and builds up the entire system. If you're billous, "run-down," or dyspeptial or suffering from any blood-init or disorder.

The winds shifted from southerly to northwesterly and be-came rather brisk for a time at evening. Humidity registered .89 in the morning and .67 at evening. The temperature ranged between 59 and 68 degrees, the average (62) being 9 higher than on the corresponding day last year, and 1% lower than on Saturday.

In and near this city to-day there will probably be fair, slightly couler weather.

NOTES ABOUT THE HORSES.

The decision of F. A. Ehret to sell his stable sur-prised racegoers and horsemen, as the stable is at the head of the list of winning stables in 1892, and, as every unprejudiced person concedes that at least \$50. 000 was lost through bad judgment of jockeys and that Trainer Allea shares with the jockeys some of the re-sponsibility for the defeat of horses which raced under the Ehret colors, it puzzles them to find a reason for

Colonel F. McLewee, who selected the horses and attended to the business management of the stable, explains the reasons as follows: "From the start we have had trouble with jockeys, but endeavored to overcome all obstacles of that sort by paying liberally for their services; but no matter what was done it was a series of continual dissatisfaction which made it extremely unpleasant for everybody in any way interested in the stable. Besides, everything we did to make the stable a successful one was misconstrued and commented upon in such a manner that it became so conotonous and was kept up so consistently that intimate friends advised Mr. Ehret to retire from the A large number of prominent breeders from all

parts of the country are in the city to attend the great sales of thoroughbreds that are to be disposed of this week. A large crowd took advantage of the pleasant weather yesterday and visited the sale paddocks at Hunt's Point. Rayon d'Or attracted a great deal of attention. He is in superb condition and looks as if he would produce

some more Panquets and Tennys before he passes the

finishing post of his career. It was a magnificent

sight to see so many royally bred mares romping through the roomy puddocks at Hunt's Point.

At the Tattersulis' ring at Fifty seventh-st. and Seventh-see, a continual stream of visitors inspected the recent English importations, many of which were exceedingly good looking specimens of the thoroughbred, but the lovers of American-bred horses who visited Tattersall's felt proud when they saw Ann Fief led into the ring, as several of the Englishmen who were present were outspoken in their admiration for the dam of the champion American two-year-old, "the black whirl. wind" Tremont. Although the imported yearlings were all that could be desired and elicited favorable comment from the horsemen present, a yearling daughter of the great sire of winners, Longfellow, out of Hypetia, upheld the standard of American-bred year

lings to the satisfaction of all. C. Enright, who has left the luring occ bookmaking and racing horses, is in the city to attend bookmaking and racing horses, is in the city to attend the sales and says that he never knew what happi-ness was until he secured Elmendorf, and went to live in the Blue Gruss region of Kentucky. Mr. Enright will take back a carload of choicely tred mares owned by New-York turfmen who desire to breed in a small way.

Milton Young, who takes his politics from The Tribune, is the Napoleon of Kentersky breeders, as ho is willing to take the chances of breeding his best mares to untried stallions, for he says that you never can tell what a well-bred horse can do in the stud unless he has a chance at the beginning of his career.
